

Anchor Chair

Rebar Accessories

Technical Data Sheet

Description:

Anchor chairs secure the sections of rebar that intersect, eliminating the need for tie wire.

Application:

When the slab is poured, concrete fills the anchor chair's void and secures it to the grade.

Product Specifications:

- Made from polycarbonate plastic
- Meets requirements of CRSI Class 1 Rebar Support
- For $\frac{3}{8}$ " FRP Rebar

Benefits:

- Polycarbonate plastic provides higher strength
- Replaces the need for tie wire
- Fast installment
